

K-LOVE is an important part of my families daily lives. There are so many positive aspects of K-LOVE's programming that encourage our whole family. We beleive that K-LOVE is important for the whole community. If the proposed rule changes are enacted and Low Power FM is given a priority over FM translator service Thousands of people will loose there ability to listen to a very important service to the community. K-LOVE provides an irreplacable service and if it were unavailable it would have a very negative effect to those whole listen daily. Thank you for doing your part to help preserve K-LOVE not being forced off the air!
